To High-Toned Saloon Keepers of the Capital

## PERSON'S VIGOROUS POLICY

Sensational Scene in a Court Room—Big Land Deal—Women Suffragists—Other Happenings

**LANSING, May 6.**—Judge Person this morning in the Michigan circuit court here read the riot act to saloonkeepers. He said it had come to his knowledge that several high-toned dealers had paid no tax, and if the law was not immediately complied with he would call a grand jury and they should be fined the full extent of the law, \$250 per day since May 1. He also said he would personally give instructions to the city marshal to have the law with reference to saloons rigidly enforced, which would stop entirely the traffic after hours and Sundays. There were thirty-seven licensed saloons in the county last year and less than half that number have paid any portion of the tax this year.

The social customs at Flint are somewhat peculiar. Amelia Way and Jesse Cady did what all young people should—got married, and went directly to housekeeping. By way of charming the neighbors broke the windows, stopped up the chimney and licked the fair bride's father because he objected. The bachelors thought it all a huge joke until a dozen of them were arrested and lodged in the cold, unfeeling jail.

Several Lansing citizens watched all night in the cold, damp air for the fellow who had been helping himself to their nice, dry hand-split beech and maple. They caught him just as the gray dawn was breaking over the eastern horizon, but he told them such a pathetic story that they turned him loose on a promise to sin no more. He probably won't until the autumn breezes blow through his whiskers.

Speculated trout are caught from the main street of Monticello, the anglers landing on the sidewalk and dropping their lines into the waters of the creek flowing beneath. This is the favorite occupation of the merchants who don't advertise.

The St. Joseph river is a raging sea, being higher than for ten years past. Bridges have been swept away and large trees drifted down and beached on the shore. Dock buildings, ordinarily considered safe, are in actual danger.

There is a great demand for tickets to the banquet of the league of republican college clubs to be in Ann Arbor the 17th. The Hon. J. Stuart Fassett, chairman of the St. Charles and others, equally eminent will respond to toasts.

## REV. T. A. DELLAS.

He Frankly Says He Could Not Resist Kissing Miss Henderson.

There is one minister of the gospel who will never be charged with not having said something original. He is Rev. T. A. Dellas, of Alexandria, Va., and he has a wife and two children. Some time ago he was arraigned by the Methodist church for kissing a Miss Henderson, one of his converts. When asked what he had been doing the night in question he frankly replied:

"After we returned from service that night we left Mr. Gray to take care of the horses, and Miss Henderson and myself started for the house, she going before, when suddenly she turned to me and said: 'Do let my darling give me a sweet kiss.'"

"There are few men who could or would resist doing this, and, without thinking of the result, I yielded to her request."

"We went into the house, and after a short conversation, in which my wife was freely spoken of and regrets expressed at her not being present, we retired for the night."

"After I had disrobed myself and retired, Miss Henderson, the young and fascinating lady, opened my bedroom door and came in unto me and began to address me in the most affectionate language, which utterly controlled my nature as a man."

"And now let me ask my readers what would or what could they have done had they been in my stead? God knows that my desire and intentions are for the right, but, like unto all others, I was not free from temptation."

ETTA McBRIDE, school-teacher, bids fair to be cleared up now. Miss McBride has been located at Lake Mary, Fla., where she is teaching school. She remained there until a few months ago, when she went south to Charleston, where she was supposed to have died. A search instituted by her brother-in-law, W. Lamberton, failed to discover her whereabouts, though it developed beyond question that she was not dead.

## A COUNTRY RESIDENCE.

It Rooms are Well Arranged and It Has a Handsome Exterior. (Copyright, 1901, by American Press Association.)

The accompanying perspective and floor plan are of a country residence of moderate cost, built in Illinois.

It is a frame residence with all modern improvements and is suitable for either city or country. The height of the first floor is 10 feet above the grade line, and it is reached by broad steps leading to the front veranda, whence a pair of double doors leads into the hall, a vestibule connected with the hall by a single sliding door. The hall is of ample size, with parlor, sitting room and dining room connected with it by sliding doors.

By adoption of this plan there can be an easily be thrown together an excellent house of moderate cost. Opening of the

stating room is a curtained bed alcove which is connected with the bathroom.

The sitting room and dining room are furnished with drawers under the seats in the bay windows. The kitchen is so located as to be convenient of access to other parts of the house, and at the same time so arranged as to prevent the noise and smells of cooking from entering other rooms, having two doors between it and any other room connected with it.

The comfort and utility of a house depend so much upon the arrangement and relative position of the rooms that the success of a design in execution may almost be said to depend upon the manner in which the planning of the rooms is executed. Unfortunately this fact is often overlooked, and essential features of the plan are sacrificed for the sake of the elevation. In this design is a compact and con-

venient arrangement of rooms with a neat and pleasing elevation. The front window in the parlor has a polished plate glass 60x26 inches, with stained glass transoms over it. The three windows on the main stairs are of stained glass.

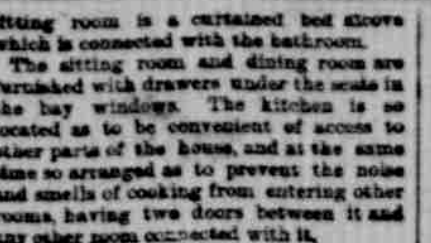

The second floor is reached by two stairways, rising from the front and back halls. On the second floor are five chambers. Ample provision is made for closet room. Red oak finish is employed in the vestibule and front hall, including the staircase—Dartmouth, Cook, Chester Hutchinson, Louis Pettit, Richard F. Ansley. Original, widow, etc.—Ida A. Graham, Mary Moore, Ann Roe (mother), Catharine Carpenter.

The kitchen and dining room are wainscoted to the height of 3 feet, and the bathroom 6 feet. All other rooms are finished in white pine. The entire first floor is finished in hard pine. Height of the first story 10 feet and second story 9 feet in the clear.

The outside finish is of pine. The walls are sheathed with shiplap and paper, and finished with 1/4-inch siding. The lower part of gables and the roof are covered with cypress shingles.

The house is well plumbed and heated by furnace. Total cost, \$4,000.
